NPL Services for Examiners

Thursday, December 30, 2004

STIC's mission is to connect examiners to critical prior art by providing information services and access to NPL electronic resources and print collections. A STIC facility is located in each Technology Center.

Most of the electronic resources listed on this site are accessed via the Internet. Please obey USPTO "Rules of the Road ([PDF Text](#))" when using Internet resources.

Relevance scale **1 Concurrent garbage collection using hardware-assisted profiling**

Timothy H. Heil, James E. Smith

October 2000 **ACM SIGPLAN Notices , Proceedings of the 2nd international symposium on Memory management**, Volume 36 Issue 1Full text available:  pdf(1.74 MB) Additional Information: full citation, abstract, citations, index terms

In the presence of on-chip multithreading, a Virtual Machine (VM) implementation can readily take advantage of *service threads* for enhancing performance by performing tasks such as profile collection and analysis, dynamic optimization, and garbage collection concurrently with program execution. In this context, a hardware-assisted profiling mechanism is proposed.

The *Relational Profiling Architecture* (RPA) is designed from the top down. RPA is based on a relational model similar ...

2 Publish/subscribe in a mobile environment

Yongqiang Huang, Hector Garcia-Molina

November 2004 **Wireless Networks**, Volume 10 Issue 6Full text available:  pdf(302.60 KB) Additional Information: full citation, abstract, references, index terms

A publish/subscribe system dynamically routes and delivers events from sources to interested users, and is an extremely useful communication service when it is not clear in advance who needs what information. In this paper we discuss how a publish/subscribe system can be extended to operate in a mobile environment, where events can be generated by moving sensors or users, and subscribers can request delivery at handheld and/or mobile devices. We describe how the publish/subscribe system itself ...

Keywords: event systems, mobile networks, publish/subscribe, wireless ad-hoc networks

3 New products

Linux Journal Staff

July 2004 **Linux Journal**, Volume 2004 Issue 123Full text available:  html(7.27 KB) Additional Information: full citation**4 A User-Centered Location Model**

Natalia Marmasse, Chris Schmandt

January 2002 **Personal and Ubiquitous Computing**, Volume 6 Issue 5-6

Full text available: [pdf\(58.62 KB\)](#) Additional Information: [full citation](#), [abstract](#), [index terms](#)

This paper discusses the user-centered location model used in *comMotion*. In this context, the location model refers to a set of learned places (destinations), which coincide to a latitude and a longitude, that the user has categorized. It also includes knowledge of the routes between the destinations and the time it takes to travel them. The model is based on user experience, i.e. his patterns of mobility, so no two models are the same. We also discuss the pattern recognition models imple ...

5 Information technology and organizational change

Patricia Carlson

October 1999 **Proceedings of the 17th annual international conference on Computer documentation**

Full text available: [pdf\(1.41 MB\)](#) Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

My paper considers the impact of emerging, integrated information technology (IT) and information systems (IS) for a research and development organization. Background research was conducted during the period of 15 June - 28 August, as part of an Army Summer Faculty Research and Engineering Program grant. More specifically, this document discusses the interaction of corporate culture, leadership/management, human resources, and advanced networking and web-based applications (more commonly ca ...

Keywords: information technology, intranet, workplace re-engineering

6 A plan for producing a conventional Ada library

Marin D. Condic

September 2003 **ACM SIGAda Ada Letters**, Volume XXIII Issue 3

Full text available: [pdf\(294.13 KB\)](#) Additional Information: [full citation](#), [abstract](#)

There is a general consensus that Ada would benefit from having a library of tools available that would be standard across most or all implementations. This paper discusses how to get a "standard" library for Ada without impacting the ARM, increasing the leverage available to Ada developers, providing an enhanced product for the Ada compiler vendors, sparking new interest in Ada and perhaps building a financially successful business in the process.

7 A summary of domain analysis experience by way of heuristics

W. Lam, J. A. McDermid

May 1997 **ACM SIGSOFT Software Engineering Notes , Proceedings of the 1997 symposium on Software reusability**, Volume 22 Issue 3

Full text available: [pdf\(1.69 MB\)](#) Additional Information: [full citation](#), [references](#), [citations](#), [index terms](#)

Keywords: domain analysis, domain engineering, requirements reuse
